DETAILED ACTION

Claims 9-14 have been added. Therefore, claims 1-14 are pending in this application. Claims 3, 5, 8 and 11-14 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference, which anticipates one group, would not render obvious the other.

In the Office Action mailed on 04 October 2004, the previous examiner made an error in the Office Action Summary by checking both the non-final and final rejection boxes. The examiner regrets any inconvenience this may have caused. I would like to confirm that the previous office action is non-final.

New Grounds of Rejection

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

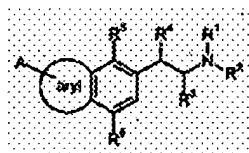

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 7, 9 and 10 are rejected under 35 U.S.C. 102 (b) as being anticipated by GB 1005024.

Art Unit: 1626

Applicants instant elected invention in claims 1 and 2 teach compounds of formula I,

, depicted in claim 1. GB 1005024 teach compounds that read on the instant claimed compounds wherein: **R₁** and **R₃** represent H; **R₂** is an alkyl group; **R₄** is OH; **R₅** is OMe; **A** is H and Aryl is a phenyl group (See CAS ABSTRACT RN # 93025-08-2, copy attached). GB 1005024 also teach pharmaceutical use of the compounds (See Abstract).

Response to Amendment and Remarks

Applicants amendment and arguments was persuasive to overcome the rejections of as set forth in the Office Action mailed on October 4, 2004. The method of use claims have not being rejoined because the compounds have not been found allowable.
